

Dogan SAGLAM (Dawn)

Software Developer

SUMMARY

Creative and detail-oriented software developer with a deep interest in front-end development. Looking to bring my skills to a tech company with global reach and great learning environment.

WORK EXPERIENCE

Software Developer at 100Devs | Los Angeles, CA

February 2022 - Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full stack web applications
- Applied agile methodologies like SCRUM for project management

Recent Projects:

- **myMovie(Fullstack Web App)** — Users can create their accounts and log into to save movies to make their own lists. They can search for specific keywords to check a movie from API.
 - Created with [ReactJs](#), [TailwindCSS](#) and [Firebase](#)
- **Todolist (Fullstack Web App)** — Users sign up and log into their accounts to create, edit or delete their notes.
 - Built with [ReactJs](#), [TailwindCSS](#) and [Firebase](#)
- **ESLcanvas (Web App)** — As a former teacher, I wanted to contribute to online teaching so students and teachers can have fun while learning. They can upload an image, draw on it and roll a die to decide team's movement or whose turn it is.
 - Built with [SCSS](#) and [Vanilla JavaScript](#)
- **100 Hours project ~**

Full Stack Web Developer at imDawn's Consulting | Izmir, Turkey

March 2022 - Present

Created static websites and landing pages for different clients across small and medium size businesses.
